akutex

## SOUNDLUX

**14 offices**

in Russia,  
the CIS  
and Europe

**25 years**

of successful noise  
elimination  
and acoustics  
improvement

more than

**10 000**  
completed  
projects

**400**  
employees

**2 acoustic  
chambers**

that have  
no analogues  
in Russia, the CIS  
and Europe

# BONACOUSTIC

acoustic non flammable and hard  
combustible panels

substantial reduction  
in ambient noise

diverse finishing  
options and perforation  
choices

utilizes safe MgO base  
material with exclusive  
fire-resistant printing

**BONI**  
ACOUSTIC

# DECOUSTIC

acoustic perforated panels

substantial reduction  
in ambient noise

diverse finishing  
options and perforation  
choices

utilizes seamless  
mounting system  
designed for premium-  
class projects.

**DECOUSTIC**

Synergy of wood and perforation  
for better acoustics

# SOUNDBOARD

acoustic wood fiber panels

high acoustic  
characteristics

fire safety

eco-friendly

**SOUNDBOARD**

# SOUNDLUX

sound-absorbing perforated panels  
and suspended elements

high mechanical  
strength of outer  
surface

100% incombustible

effective sound  
absorbance

## SOUNDLUX

# AKUTEX

acoustic roller banner and seats

professional solutions  
for multi-purpose halls

reduction  
of reverberation time  
in sound reinforcement  
mode

high degree of sound  
absorption

**akutex**

# FLEXAKUSTIK

decorative and acoustic materials  
on a 100% PET acoustic felt base

optimal sound  
absorption

easy installation

the ability to create  
flexible surfaces

flexakustik

# AKUFON

high-density fiberglass elements and panels

high acoustic  
characteristics

fire safety

eliminate  
the reverberation  
effect

**AKUFON**

# ULTRASPRAY

sound-absorbing coating

sprayed directly  
onto the surface

preserves the height  
of the room and space

allows you to cover  
large volumes  
of ceilings in a short  
time

Acoustic Group company was founded in 1999. The same year the company's management decided to launch business activities on development and promotion of innovative products in building acoustics, as well as standard solutions for room soundproofing in industrial and civil construction.

Acoustic Group creates acoustic comfort in all areas of human life. This is about a quiet private dwelling, a comfortable office, where you can hear only what is important and informative, excellent conditions in music and theater halls, and a cozy street atmosphere.

Nowadays, Acoustic Group encompasses:

14 offices and 4 industrial complexes located in the Russian Federation, the CIS and Europe a complex of small measurement chambers; patents for inventions and utility models materials and structures for insulation of airborne and impact noise, for vibration isolation of engineering equipment and entire buildings, sound-absorbing materials and structures, sound-proof screens research and development, acoustic measurements, design, educational work acoustic consulting, including design work within self-regulating organizations (SRO) established partnership and commercial communication with leading global and domestic manufacturers in construction industry.

This brochure presents decors with maximum acoustic efficiency.

The proposed decorative solutions using materials of the Acoustic Group trademark have been successfully tested and confirmed their high acoustic and operational characteristics.
